

HighPassGG – How It Works

Welcome to HighPassGG – a DMCA free music service tailored to content creators. You may be wondering – “Is this legit? Can I really use this music on my stream and in my content?”

The short answer is – YES.

The long answer is... STILL YES.

(but check back to read the Terms of Service that our lawyers wrote, coming soon)

If you’re looking for a TL;DR on the Terms of Service (*again, that thing our lawyers wrote, coming soon*), then we can provide that too – but keep in mind, our lawyer also told us that this summary is for information only and that the full terms are in the Terms of Service. TL;DR – These are some FREE TO USE TUNES for you to include in your video content or streams. You need to credit us, but we don’t want to touch your monetization or DMCA you. Your content is yours – we’re here to supply the soundtrack to it.
